

## **35. Zimní škola "Abstract Analysis"**

The conference will be held under the auspices of the Centre for Theoretic Study of Charles University and Mathematical Institute of the Academy of Sciences of the Czech Republic.

The main topics are traditional: Set theory, general topology, topological dynamics, categorical topology, Boolean algebras and measure theory. Till now, Professors Olga Sipacheva (Moscow State University, Russia), Joerg Brendle (University of Kobe, Japan), Marek Balcerzak (University of Lodz, Poland) and Menachem Kojman (Ben Gurion University, Israel) accepted to give a series of lectures as invited speakers.
